PICKUP
FreightServices

Environmental Policy Statement

Pickup Freight Services Ltd is committed to minimising its environmental impact and operating in a sustainable manner. We are committed to the following principles:

- Prevention of pollution and waste reduction: We will implement measures to prevent pollution and reduce waste generation. This includes using energy-efficient vehicles and equipment, recycling and composting, and properly disposing of hazardous materials.

- Protection of natural habitats, flora, and fauna: We will consider the effects of our operations on the local environment and take steps to protect natural habitats, flora, and fauna. This includes avoiding sensitive areas, using environmentally friendly materials, and restoring disturbed areas.

- Consideration of the local community: We will work to minimise our impact on the local community by reducing noise and air pollution, and by being considerate of local residents and businesses.

- Elimination or reduction of adverse environmental impacts: We will take action to eliminate or reduce as far as practicable, any potentially adverse environmental impacts. This includes implementing measures to reduce greenhouse gas emissions, improve fuel efficiency, and conserve water.

- Promoting environmental awareness: We will promote environmental awareness amongst our suppliers, contractors, and partners by implementing operational procedures. We will also provide environmental training to our employees.

- Working in partnership with the community: We will seek to work in partnership with the community by behaving in a considerate and socially responsible manner. We will also support community organisations working to protect the environment.

- Effective incident control, investigation, and reporting: We will ensure effective and expedient incident control, investigation, and reporting. This includes having a plan in place to respond to environmental incidents, and reporting incidents to the appropriate authorities.

Compliance with Statutory Legislation and Approved Guidance

Pickup Freight Services Ltd will fully comply with the duties placed upon it within the requirements of Statutory Legislation, whilst at all times complying with, as a matter of best practice, the requirements and duties set out within Approved Guidance as issued by the Environment Agency and other organisations.

Employee and Sub-Contractor Cooperation

All employees and sub-contractors are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own works, so far as is reasonably practicable, are carried out without risk to themselves, others or the environment. This includes co-operating with management on any environment-related matter.
Identification and Mitigation of Hazards and Risks

Pickup Freight Services Ltd will take all practical steps to ensure that potential hazards and risks to the environment are identified and that suitable and effective preventative and control measures are implemented. All employees will be provided with the necessary resources, equipment, information, instruction, and training to fulfil the requirements of this policy.

Monitoring and Review

The Director has overall responsibility for all Environmental matters. The operation of this policy and the associated procedures will be monitored and reviewed on a regular basis to ensure that they remain current and applicable to the company's activities. This policy has been endorsed by the Board of Directors who gives their full support to the implementation of the policy.

Luke Pickup
Managing Director
